

ASHWINI MAGAR

Frontend Developer | React.js Developer

✉ ashwini.magar1306@gmail.com ☎ 9767776511 📍 Mumbai 🔗 <https://www.linkedin.com/in/ashwinimagar/>

PROFILE SUMMARY

Proficient Frontend Developer with 2.7 years of experience in building high-performance, responsive web applications. Skilled in collaborating with cross-functional teams to develop scalable solutions and optimize application performance. Strong expertise in React.js, Redux, JavaScript (ES6+), HTML, CSS, and modern frontend technologies. Passionate about writing clean and maintainable code.

WORK EXPERIENCE

Software Associate | Capgemini

Aug 2022 - Present

Project : E-commerce Platform Development

- Developed and maintained **high-performance, responsive web applications** using **React.js** and **Redux**, improving **application performance by 30%** and enhancing **user experience**.
- Collaborated with **UI/UX designers** and **backend developers** to implement **user-friendly interfaces** and integrate **REST APIs** for **seamless** and **efficient data fetching**.
- Implemented **component-based architecture**, ensuring **code reusability**, **scalability**, and **maintainability**, reducing **development time by 25%**.
- Led the **migration of legacy code** to **modern React standards**, enhancing **code quality** and reducing **technical debt by 40%**.
- Optimized **state management** by leveraging **React Hooks & Context API**, reducing reliance on external libraries and improving **code maintainability**.
- Enhanced **development efficiency** by integrating **Vite**, reducing **build times by 50%** and streamlining **deployment cycles**.
- Monitored and **optimized front-end performance**, reducing **load times** and improving overall **user experience**.

Project: Internal Dashboard for Analytics

- Developed a dynamic React.js **dashboard** for real-time business insights, integrating **Redux & Chart.js** for **efficient data visualization**.
- Optimized performance using **lazy loading & memoization**, reducing initial load time by 40%.
- Implemented secure **authentication** with JWT & role-based access control, ensuring data protection.
- Integrated **REST APIs for fetching real-time metrics** & generating reports in CSV/PDF formats.

EDUCATION

- Bachelor of Computer Science (BCS) - 90%** 2019 -2022
- S.M.V, Akluj - Higher Secondary Certificate- HSC - Science - 77.40%** 2019

SKILLS

- Technical Skills:** React.js, HTML, CSS, JavaScript, ES6, Redux, Agile, REST APIs, Node.js, Tailwind CSS, Chakra UI, GSAP.
- Tools:** Git, GitHub, Vite, postman, VS Code.
- Testing:** JEST, React testing library.
- Soft-Skills:** Problem Solving, Teamwork and Collaboration, Creativity, Time Management, Leadership.

ADDITIONAL INFORMATION

- Certifications:** React JS -Udemy, JavaScript -Udemy, Agile methodologies-Coursera, Web development - Udemy, JavaScript -HackerRank, AZ-900, Google Cloud Practitioner, generative AI
- Interests:** Reading books, playing chess, and exploring emerging technologies such as AI, Web Performance Optimization, and Serverless Architecture.
